

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

Mutual Assurance. Moderate Premiums.

THE PREMIUMS are so moderate that, at usual ages for Assurance, £1200 or thereby may generally be secured from the first for the Yearly Payment which in most Offices would assure (with Profits) £1000 only—the difference of £200 being equivalent to an immediate and certain Bonus of 20 per cent.

THE WHOLE SURPLUS goes to the Policy-holders on a system at once safe and equitable—no share going to those by whose early death there is a *loss* to the common fund.

The Surplus at the 1901 Investigation was £1,581,000.

Over Sixty per cent. of the Members who died during the last Septennium were entitled to **Bonuses** which, notwithstanding that the Premiums do not as a rule exceed the non-profit rates of other Offices, were, on the average, equal to an addition of over 50 per cent. to the Original Assurances.

Accumulated Funds now exceed £12,500,000.

IN connection with the approaching Fiftieth Anniversary of the grant of the Royal Charters, the Chartered Accountants of Scotland have instructed the preparation and publication of a History of Accounts and of the Accountant Profession, and every effort is being made to obtain as full information as possible.

Mr. Richard Brown, C.A., Secretary of the Society of Accountants in Edinburgh, invites any one possessed of early forms of accounts or accountants' reports, or information as to the existence of such forms, or as to professional accountants of the Eighteenth Century or earlier, to be so good as to communicate with him. His address is 23 St. Andrew Square, Edinburgh.

The work, which will be published by Messrs. T. C. & E. C. JACK, will, it is hoped, be ready for issue before the end of the present year.

SCOTTISH EQUITABLE LIFE ASSURANCE SOCIETY.

ESTABLISHED 1831.

HEAD OFFICE : 28 ST. ANDREW SQUARE, EDINBURGH.

FUNDS at 1st March 1903 - **£4,851,240.**

A PURELY MUTUAL OFFICE.

The Whole Profits belong to the Assured, who by the Society's Special Act of Parliament are expressly protected against any individual liability.

Bonuses are calculated on the Compound System—that is, on Previous Bonus as well as on the Sum Assured.

The Immediate Bonus Plan gives a Large Assurance from the outset, with the advantage of sharing any Surplus Profits.

Endowment Assurances are granted on unusually favourable terms.

Policies are World-wide from the outset in most cases.

Guaranteed Surrender Values are stated in the Policies.

The Non-forfeiture System obviates the risk of loss from omission to pay a Premium.

Claims are payable **Immediately** on proof of death and title.

The Society transacts every description of LIFE INSURANCE BUSINESS.

INSURANCES against ISSUE are effected at moderate rates of premium.

ADVANCES ON REVERSIONS.

The ATTENTION of SOLICITORS and Others desiring to obtain ADVANCES ON REVERSIONS is directed to this SOCIETY'S IMPROVED METHODS of dealing with this CLASS OF SECURITY. When the Society purchases a Reversion, it will, in many cases, grant to the Reversioner for Five Years, or such other term as may be agreed, an absolute power of repurchase, whether the Reversion shall fall into possession or not; and, before the expiry of such term, will be ready to treat for an extension of the time during which the power of repurchase may be exercised.

ADVANCES are also made on LIFE-INTERESTS, whether present or reversionary.

Full particulars may be obtained on application.

Further additions were made to Policies which had previously participated.
